We have quite a batch of Washington news. It is not believed at the sort of Government that anything serious will result from the Spanish and fracessary, at prices that will barely cover cost of sources, is thankfully acknowledged.

There are some other things of the occupy the entire attention of the Cabinet and President, at the present time. The Treasury is fast becoming exhausted, and another National Loan will, doubtless, soon be called for.

A relation of CHAS. DICKENS, named EDWIN J. Dickens, has committed suicide in New York, . An effort is being made at the Capitol of South Carolica, to prevent the indictment of the mate and crew of the ceptured slaver Echo.

There was no change of importance in prices of wheat or flour in the New York, or our own market, on Saturday. A cold nor'-cast wind prevailed all day, ac-

companied by a drizzling rain, and mud again predominates. INFORMATION WASTED .-- An Englishman of

the Legal profession, named JOHN JAMES, who had been traveling in the United States, wrote last to his friends, in Exeter, England, dating from Milwaukee, Wisconsin, on the 24th of May In that letter he stated his intention of going by atcamer to Toronto, expecting to reach the latter place by the 3rd, or 4th of June. From this time no intelligence has reached his friends at home, of his wheresbouts. As he was in ill bealth, additional anxiety is felt on his account. Any information respecting him will be most thankfully received by his friends, who are now in a state of extreme suspense regarding his fate. Address Editor of the Sentinel, Milwanken.

DEATH OF COL. IRWIN AT ST. PAUL .- The St. Paul Pioneer of Nov. 14th annunces the sudden death, in that city of Col. M. W. IRWIN, who has resided there for five years past. Col. Inwin was a native of Pennsylvania, and for some time was principal Editor of the St. Louis Union. In 1853, he was appointed Marshal for Minnesota, and in the summer of that year removed to St. Paul, where he resided up to the period of his death. Unfortunate social habits had latterly impaired his usefulness, and led to his early

Lest bight an escort composed of twelve troopers of K Company, 2.1 Dragoons, arrived at this post. I saw the escort as well as the ladies and gentlemen whom they escorted in. But up to the time of writing this besty letter I have had the time of writing this basty letter. I have had no time to make any particular or minute inquiries, or to become thoroughly "posted up" in relation to their mission here.

It is, however, currently reported that this party has recorted Judge Rokles of Urab, who is on his way to Washington City, and is accompanied by a young lady of high standing in the little washercase.

failure. The Administration is greatly perplexed by the complication of siffairs in the Gulf, especially by the Spatish demonstration against Mozico.—Explanations have been demanded of the Spanish Minister here. Lord. Napier and Count de Sartiges are trying to help him out of his embarrasament.

The chief of a bureau in one of the Departmenta, who has been suspected of being a Doug-las man, was called up to-day before one of the Secretaries, and saked if he had subscribed to to the fund for the celebration on the reception of Douglas. The soft impreciment was denied. Senators Trumbull and Dixon have arrived.

FATAL ACCIDEST .- On Thursday afternoon last, FARL ACCIDENT.—On Thursday aftereoon last, it three German girle, sisters, named Kuehl, living on the east side of the Crawfish, in this viliage, having been over to the west and on their way home started to cross on the old R. R. bridgs, but one of them took a fancy to cross on the ice (which was very weak in the middle of the stream) turned back and got on the ice and ran part way across when she broks through, the other two seeing the danger of their sister rushed to the resca and were also precipitated into the water. Some men, who were near, seeing ad to the rescae and were also precipitated into the water. Some men, who were near, seeing the danger of the childron, and, as we learn hoing provided with a rope, threw the same to them to take hold of it, (the ice being too weak to bear up a man) one of them got hold of the rope and was drawn out, but before any assistance could be rendered to the other two, they sunk to rise no more, until life was extinct.—
The bodies were found and taken out about hell an hour after the accident, but too late to ver an hour after the accident, but too late to cuecitate them. The ages of the girls, as learn, were respectively sixteen, twelve and six, the oldest and youngest got drowned. What makes this accident more afficiting to the fether, if possible, is, that the mother of these children drowned near the same spot a little than two years ago, and the oldest of the girls, now dead, was old enough to take some care of the family.

For the Sentinel. Equal Rights.

MR. Euros: -It reems to me that the doctrine of equal rights, is entitled to respect and practical acknowledgement in all relations to buann life. It is, however, virtuelly ignored in denominational matters, by your neighbor of the Wisconsin. For instance, refer to the report of the religious exercises of Thanksgiving day -One would really suppose that there are no Methodists in Milwaukee. They and the Catho lies entirely escaped the notice of the numerous and accomplished corps of reporters attached to the Wisconsin office. And yet it is said by some knowing ones that the Methodists were addressed by the able divine who officiates In the Summerfield M. E. Church. It is said that this discourse was delivered in the Epring St. M. E Church, and that at the same time and place a collection, (of which no previous notice had been sent to the Mothsdist Churches,) was taken up in behalf of the Protestant Orphan Asyluma although the same has not been acknowledged. While upon this subject, I may remark that the

Methodists every year, as the public know, have a number of Festivals. After these Festivals a liberal supply of provisions is invariably sout to the aforesaid Orphan Asylum. I cannot recall a single acknowledgement in print of such donations, although even a pail of milk, from other

There are some other things of the same sorto which allusion might be made, but this will suffice for the present.

We would respectfully suggest to "se family paper" that it should, as a metter of equal rights occasionally publish items to the credit of the M. E. Church, innamuch as it never omits an item in any degree discreditable to that Church. SHUMPHETED.

following circular from a Committee of the New York Chees Ciub, that it is proposed to get up a National testimonial to Paul Morphy, on his return, shortly expected, from his victorious Chees Campaign in Europe:

National Testimonial to Paul Morphy, on his victorious Chees Campaign in Europe:

National Testimonial to Paul Morphy.

The brilliant career of our distinguished country man, Kr. Paul Morphy, whose services to the cause of chees can hardly be over-estimated, seeming to demand some national recognition, his numerous friends and admires, hore and elsewhere, propose to express to him, in an endicing and substantial form, their high appreciation of his wonderful powers as a chess-playor, and stelling qualities as a man. For this purpose, they design, on his arrival home, to ask his acceptance of a set of gold and silver chosemon, exquisitely and claborately wrought, mounted on cornollan pedestals, and accompanied with a richly inheld decesboard. In addition to this, should the fund warrant it, a commemonative medal will be struck, of which our youthful othanpion will receive a copy in gold, and each subscriber to the fund, to the amount of five dollars, a copy it propose. should the fund warrant it, a commemorative model will be struck, of which our youthful otherspion will receive a copy in gold, and each subscriber to the fund, to the amount of live dollars, a copy in bronze. To this end, they ask the cordial co-operation of every chess-player, and of all those who take pride in the lact, that in atili snother ast American geoins has wreeted from the nations of Europe their audient

superiority.

Obesa clubs are asked to appoint committees to further the object, and lovers of Chess through-out the country are requested to produce the in-section of this circular in their local papers. Sub-scriptions may be forwarded to Jas. Thompson,

Eq., Treasurer of the Testimonial Committee,

MILWAUKEE: MONDAY MORNING, NOVEMBER 29.

We publish this morning, for the information of our readers, the Address put forth by the originster; of the Rail Road Debt Assumption Scheme. The object of the Address is to explain and commend this Scheme to the People of the State, and the importance of the topic treated. as well as the standing of the Committee who sign the Address, entitle it to mature and respectful consideration. While not tenacious as to the Lefails, the Committee insist very strongly upon the leading idea of their plan, to wit : that some relief is indispensable and that the State is the only source from which any substantial relief can at present be obtained. This point is argued with much force and plausibility. We regret, however, that the Committee should have embodied in their address, the more objectionable idea that Wisconsin has only to choose between Assumption and Repudiation. Whether this is put forth as the deliberate opinion of Mersis. Cathin, Cra-MEE WEEE, &c, or only held up, as it were, in terrorem, to frighten the People into the adoption of the Scheme, we cannot undertake to say; but ward." The "step forward," no doubt, is the in either event we regard the plea as a fallacious one and think that its effect will be mischievous. We do not believe that Wisconsin is reduced to any such alternative, and certainly dissent from the opinion that the Rail Road Companies, Mu-

will, in any event, repudiate their honest debts. The News of Saturday, which publishes, but reserves its opinion of the address, gives current cy, in the same issue, to an article from a correspondent, whom it vouches for as "bold and intelligent," who "looks the difficulty right square in face," and declares the only alternative to be "State Assumption, or Repudiation." If the scheme is to have no better, or fairer advocatesthan the News' correspondent, its success is more than doubtlut. We worte a few paragraphs from the article in question, to illustrate its tenor It may be said that the farmers and citizens

nicipal Corporations, and People of this State

It may be said that the farmers and chicagons generally, voluntarily understook the obligations, and that they are therefore bound to ab de by the consequence of their own acts. This I deny. The people did it under the assurance that they were never to be called upon to pay a dollar they were never they are they were never to be called upon to pay a dollar of the debt, and the farm mortgages and the credit of the cities, counties and towns were obtained under false pretences, and the people were lolled into indifference. The railroad companier were allowed to carry, their schemes by do fault, sided and assisted in the work of destruction, as they were by the legislature, with a republican Governor at the head. The state is, therefore, morally liable to redress the wrings inflicted upon the people attrough the illegal and correct acts of her officers, and, I think, the next rejublican legislature owes it to themselves, to their party, and to the people to do something to wipe out the disgrace entailed upon their organization, and relieve the people from the consequence of their misrule. the consequence of their misrule.

If the legislature refuse to submit the question to them, the responsibility rests upon them. I confess! I have very little hope that anything will be done by a republican legislature that will be beneficent or useful. That one idea party, while it has avaricious instinct to impel them to com-mis auts of folly and iniquity, lack the moral honesty and courage necessary to grapple with a difficulty, or do anything that is right and just,

The scheme or plan of relief submitted to your judgmon, has heen published, and is now before you. It is not pretended that it is perfect, or that all the details necessary to carry out the plan and the object to view, are drawn out and spread before you; a mere outline is all that is necessary at this time to bring up the subject for discussion. If the plan is a good one and just, it will, in the end, provail; if not, it may check a better one, or the plan is a good of the provail of the Assuming that the legislature will refuse to submit the question to the people, what will we do? Will we make provisions for paying the literest that is due, and to become due, and the principal at maturity of the million and a half of bonds issued by this city to the various companies, or shall we repudiate? It has been substantially accertained that the amount of sill the indebtedness, issued in aid of railroads in the state, will not exceed sevon and a half million of dollars, and that an issue of six milliors of dollars in bonds, will be amply sufficient to take up the whole amount on the principle adopted of returning the amount received for them. There are about \$50 miles of railroads fully constructed within the state, caused almost wholly by the nint rendered in the first instance by farm mortgages and city bonds.—

These Relicade, too, have been commended and heralded abroad, as eafe, reliable investments. have been paid, business has revived, manufac-turing establishments; have resumed, and many are doing better than they have done for years; money is plenty with them, and loaned at low rates of interest; while Wisconsin and her ditizens are prescribed for not keeping their obligations, and for logilating to postpone the day of payment. If we refuse to pay these obligations, can we expect money to be loaned to carry on our trade and manufactures or commerce? Will not emigration how out instead of into the Sixte? Will not property sink, improvements cence, and the whole country surfer for years. The state is the only party that has the credit

to grant relief and restore the credit of the to grant relief and restore the credit of the citica, towns and counties. The question scon will be, if not now, payment or repudiation.—
The amount is not large for the State. It is noeded to day as a rais banking basis. Examples of other States are not wanting. Minnesota, with not much over two hundred thousand population, has loaned her credit for five millions of dollars to aid her roads. The Iowa legislature is now being convened for this purpose. Now York gave three millions to the Erio road.—
Mi souri has agreed to loan her credit for a sum Mi souri has agreed to loan her credit for a sum not exceeding twenty millions. Massachusetts gave five millions to the Western road, and has undertaken to cut a tunnel through the Hoosack mountain, requiring ten years to accomplish.—
Virginia, Georgia, Texas, Arkanas, Tennesco and many other States, have aided their railroads by loaning their credit and by donations of lands.
Fellow citizens, be not deceived by an appeal

to your prejudices, but weigh the subject in all its bearings. It is of vital interest to the whole state on which its prosperity for years in a great measure depends. The revulsion of last year and the depression in business now prevailing will not long be felt when the legislation of the State is corrected and our credit restored. WEEKLY REVIEW OF MILWAUKER MARKETS.

There has been considerable variation in the prizes of breadtings both here and at the East during the week, the tendency being downard. In our market hipping grades of wheat are 2000 lower, while extra samples for milling exhibit no important change. Flour and eem have both declined materially, but the market upon the Phole has been a little merelively, and the near approach of the close of navigation and the consequent rise in freights, no doubt, is the main cause of the decline in wheat. In the early part of the week good No. I apring sold freely at 75a15c, but the ruiling flyures to-day are 70 a12c, white extra grades for milling purposes sell at 85a 85c. The receipts of wheat for the week are moderate, of nork, large for the season. Shelled corn is rather low week, being about 5c; to-day's sales showing a range o 53a55o for good lots. Bartey remains quiet and without change, common to good samples selling at 40a67c, and very choice samples at 70c. Oats are in moderate sup-ply and selling at 85a83c for fair to good. Bye remains

grades, good country brands selling at \$8,87,62\$4. The decline at the East is greater than here.

Potatoes are in moderate supply and find ready sale at 80a49c, according to quality. The market has been completely glutred with popitry, and both chickens and to hers are as chesp as dirk. Butter comes forward in considerable quantities, and sells pritty freely at last week's prices. Eggs are quite scarce and will bring almost any are firm and tolerably active, at dressed hogs are coming in fast, and selling with equa rapidity at pretty fair prices. The supply is much large than last year at this time, and the hogs, though in excellent order, are not as heavy on an average thus far, a Sast season. The sales for the week show a range of \$4.
Dia\$5.75 per 100 Ds., \$5.25a\$5.50 being the rolling figures. Hogs weighing 151 Ds. or under have sold at \$4.
but mostly; those weighing 150 to 200 Ds. \$4.75; those weighing upwards of 200 and under 225 Ds. \$5 per ewi. these weighing upwords of 225 and under 850 lbs at \$5,-50; those averaging over 850 lbs. \$5,75. Prices of live stock will be found in the circular of Messrs. Laxron &

PLANEISTON, which we append.

The offpments of gram and other produce to the East have nearly ceased, and another week will probably entirely close the exports for the season, which it will be observed by our tables, show a considerable increase over Our advices from abroad during the week show no lu

provement in the foreign breadstuff's markets. At last necounts flour and wheat had both declined in the Liver counts note and no signs of recuperation are spoken of. The New York market has been rather heavy during the past few days, with a declining tendency in wheat. The weather at the present writing is cloudy and cold with a drissly rain fa lling. It is very unfavorable for the pork trade, rendering it necessary to sail and pack quick. At this time last year winter had set in with great soverits; but it soon became mild and continued so until after the first of January. The general impression seems to be
